

Distribution of Fauna Species

Metadata Export - GEO-WB6 GIS Portal

Export Date: October 21, 2025 19:18 | **Identifier:** AL_MM_AKZM_Distribution_of_Fauna_Species | **Resource Type:** CCD

BASIC INFORMATION

Core identification information for the metadata record

Title: Distribution of Fauna Species

Country: Albania (ALB)

Abstract: National biodiversity data are now available through the Biodiversity Network National of Albania (BioNNA) website, which represents an "Entry Point" for any initiative that aims to support decisions related to biodiversity conservation and ecosystem management. BioNNA provides information on species occurrence through an open source Web-GIS system developed according to the standards set by the EU INSPIRE Directive. The data are not compliant with the State Standard for Technical Specifications of Geospatial Information in Albania. Topic: Species Distribution

Resource Type: CCD

Language: Eng

Resource Locator: https://geoportal.asig.gov.al/map/?fc_name=shperndarje_e_specieve_fauna

GRAPHIC OVERVIEW

■ ■ No graphic overview available for this resource

Graphic Overview URL: Not specified

CLASSIFICATION AND KEYWORDS

Categorization and keyword information

Topic Category: environment

Keywords: Fauna Species Species distribution

GEOGRAPHIC INFORMATION

Geographic extent and bounding box

Bounding Box: SRID=4326;POLYGON ((19.272 39.637, 19.272 42.655, 21.037 42.655, 21.037 39.637, 19.272 39.637))

Coordinate Reference System: KRGJSH

TEMPORAL INFORMATION

Temporal coverage and dates

Temporal Extent: Available data

Publication Date: 2022-02-14

Creation Date: 2015-08-18

Last Revision Date: 2023-07-24

QUALITY AND CONFORMANCE

Data quality and standards conformance

Lineage / Provenance: In the framework of the project "Institutional Support for the Management of Protected Areas in Albania" funded by the Italian Development Cooperation and implemented by the International Union for Conservation of Nature (IUCN), the experience gained through global and local initiatives has been transferred to Albania to create an infrastructure for the standardization, integration and dissemination of national biodiversity information. National biodiversity data are now available through the Biodiversity Network National of Albania (BioNNA) website which represents an "Entry Point" for any initiative that aims to support decisions related to biodiversity conservation and ecosystem management. BioNNA provides information on species occurrence through an open source Web-GIS system developed according to the standards set by the EU INSPIRE Directive.

Spatial Resolution: 25000

Specification: ISO 19139

Degree of Conformance: Conformant

ACCESS AND DISTRIBUTION

Access constraints and distribution information

Access Constraints: restricted

Limitations on Public Access: There are restrictions on public access.
