BASIC INFORMATION

Core identification information for the metadata record

Title: DCM No. 45, dated 29.01.2014, on agricultural land plots

Country: Albania (ALB)

Abstract: This data set represents the agricultural land plots that, by decisions of the Council of Ministers no. 45, dated 29.01.2014, have been given the responsibility of administration to the Ministry of Agriculture and Rural Development for lease. The data on the areas, the type of resource category and the land quality (where data exist) have been obtained from the Directorates of Land Administration and Protection at the Regional Councils. These data, together with the legal status of ownership, have been confirmed by the Local Real Estate Offices. For this purpose, the data of the initial registration of real estate have been used as cartographic data and their cartographic presentation has an orientation purpose for the location of the plots.

Resource Type: CCD
